"Common Water Resources Management System for long-term sustainability - WRESTLE"

The Department of Economics of the Democritus University of Thrace participates in the project entitled "Joint Water Resources Management System for Long-term Efficiency" (WRESTLE), which is implemented under the INTERREG VA program "Greece- Bulgaria 2014-2020 "and aims at the implementation of the Directive - Water Framework in the cross-border area of Greece-Bulgaria. The general objective of the WRESTLE project is the design and implementation of a joint system in the cross-border area Greece - Bulgaria for the sustainable management of available water resources. The common system will facilitate the protection of water quality / quantity and ensure its efficient use in response to EU directives and national legislation.

The corporate scheme consists of the Municipal Water Supply and Sewerage Company of the Municipality of Alexandroupolis (DEYAA) as a lead partner, the Central Union of Greek Municipalities (KEDE), the Democritus University of Thrace, the Municipality of Xanthi, the Municipal Company of Water Supply and Sewerage of Xanthi, NGO "SWPIC" from Blagoevgrad, Bulgaria and the Municipality of Kresna.
